Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Reissue Applications

1. The reissue oath/declaration filed with this application is defective because the error, which is relied upon to support the reissue application is not an error upon which a reissue can be based. See 37 CFR 1.175(a)(1) and MPEP § 1414.

For example, "failure to include the following claims in the original patent..." is not an acceptable statement of an error. Specific changes or amendments to the claims must be identified. If new claims are presented, their differences from the original claims must be pointed out. See MPEP 1414.

The declaration does not specifically identify the changes made to the claims. The rated output of the starter as disclosed in column 6, lines 17-21 is not an acceptable statement of an error.

2. Claims 1-22 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

3. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 1-22 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

See MPEP § 1414.01.

The application has two declarations, where the inventors sign one declaration and the other is signed by the assignee. All oaths/declarations in a broadening reissue application must be signed by all of the inventors (except as otherwise provided in the rules, - see 37 CFR §§ 1.42, 1.43, 1.47). In a non-broadening reissue application, either all the inventors or all the assignees must sign the oath or declaration. MPEP 1410.01.

NOTE: All oaths must be properly notarized and declarations must include declarant's warning against perjury and jeopardy to the validity of the patent.

The oath or declaration must state that the person signing believes the named inventor or inventors to be the original and first inventor or inventors of the subject matter which is claimed and for which a patent is sought as required by 37 CFR 1.63(a)(4).

Art Unit: 2834

The signatures on all prior submitted papers must be updated since they were provided over a year ago.
